PROFESSIONAL SUMMARY

Project Engineer with over 2.6 years of hands-on experience in building responsive, scalable, and dynamic front-end applications using Angular. Proficient in API development, database management, and front-end optimization. Adept at working in Agile environments and collaborating with cross-functional teams to deliver impactful software solutions.

EXPERIENCE

Project Engineer | Wipro (Hyderabad)   Jun 2023 – Nov 2024

- Developed and integrated responsive website layouts and user interfaces using **HTML5**, **CSS3**, and **JavaScript** following standard web development practices.
- Gathered and refined technical specifications and requirements based on business and user needs, ensuring alignment with project goals.
- Demonstrated a solid understanding of **web application development** principles, including **session management**, **security protocols**, and **Object-Oriented Programming (OOP)** concepts.
- Utilized **relational database systems** such as **MySQL** to design, query, and manage data for web applications.
- Showcased strong organizational and project management skills to handle multiple tasks within tight deadlines and budget constraints while maintaining high-quality standards.
- Thrived in fast-paced environments by rapidly learning and mastering diverse **web technologies** such as **Bootstrap**, **jQuery**, and **APIs** to meet dynamic project demands.
- Applied basic knowledge of **Search Engine Optimization (SEO)** techniques to improve website visibility and performance on search engines.
- Stayed updated with emerging technologies and industry trends, integrating modern tools and practices like **version control (Git)** into daily workflows.
- Collaborated with UI/UX designers to align with visual design intent and implemented **data integration** solutions using **REST APIs** and various backend services.
- Maintained comprehensive documentation for web development projects, ensuring proper knowledge transfer and consistent understanding of technical workflows.

SKILLS

Programming skills : Core Java, JavaScript, TypeScript, HTML, CSS

Web Development : React, Angular, Express, Node.js, Git, Postman, Jenkins.

Database : MySQL, Mongo DB.
